

Komposantuppdelning

Namn: _____

Dela upp den givna kraften i komponenter längs de markerade riktningarna! (1 cm motsvarar 10 N)

(a)

(b)

(c)

(d)

(e)

$\alpha + \beta = 90^\circ$
 $x + \beta = 90^\circ$
 Alltså är $x = \alpha$

(Låda på lutande plan.)
